

**Classic:** *Perfect for a single computer and easy EHS compliance*

### **Total MSDS & Chemical Inventory Management from a single desktop**

- Powerful and affordable standalone solution
- Easy to use and handles all types of MSDSs
- Fast MSDS binder creation, updating and tracking
- Automatic manufacturer direct MSDS updates
- Simplifies regulatory reporting & OSHA compliance

### **Functional Overview**

- Internet Downloads
- Automatic MSDSs Updates at No Charge
- Total Chemical Inventory Management
- More Standard Features
- Powerful Reports
- Container Labels
- Binder Creation, Updating & Editing
- Easily Archive Outdated MSDSs
- Author New MSDSs
- Import & Export Information
- System Requirements

### **Internet Downloads**

Leverage the power of the internet with MSDSpro Classic by importing your MSDSs directly from the manufacturer...at NO CHARGE!

- Locate the MSDS you need on the manufacturer's web site
- Import it into MSDSpro and add the needed product data

## **Automatic MSDS Updates at No Charge**

Easy access to MSDSs updates at the touch of a button. Eliminate the problem of updating and maintaining your MSDSs

- Update your MSDSs 24-7-365 for free
- Click the update from internet button and instantly capture the most current MSDSs available
- Archive old MSDSs for “Cradle to Grave” OSHA and WHMIS compliance

## **Total Chemical Inventory Management**

- Track and report chemical details and locations (unlimited)
- Produce the SARA Title III/Tier 2 report automatically
- Track chemical quantities and thresholds (TPQs)
- Barcode scanning for updated chemical inventories
- Instantly generate multiple chemical inventory reports

*\*Accurate tracking of chemical products by location, ingredients, weight percentages and regulatory flags helps keep your entire chemical inventory compliant, easier to update and faster to report.*

## **More Standard Features**

MSDSpro Classic is loaded with more features than other programs out there.

- MSDSpro is NOT modular and includes everything you need for EHS, OSHA & WHMIS compliance
- No extra charge for labels, reports, authoring or any other tool you need
- 100% upgradeable! Need your MSDSs available on the company intranet?

## **Powerful Reports**

Powerful reports put critical product, inventory and regulatory compliance data at your finger tips. Choose one of the many pre-built reports to quickly access your data.

- Product and inventory
- Chemical and ingredients
- Regulatory compliance

Create, save and export virtually any report you need with MSDSpro's ***Custom Report Generator***

- Robust and easy to use
- Create custom reports from thousands of fields
- Export to Access, Crystal Reports, Excel and the most popular programs
- Take Control of your inventory

## **Container Labels (NFPA, HMIS, WHMIS & DOT)**

Right-to-Know (RTK) label printing at no additional cost

- NFPA-National Fire Protection Agency
- HMIS – Hazardous Material Identification System
- WHMIS – Workplace Hazardous Materials Information System
- DOT Shipping Labels – Department of Transportation

*Print secondary container labels in various sizes from large containers down to small spray bottles.*

## **Binder Creation, Updating & Editing**

Creating binders for your employees is fast, simple and easy.

- Instantly generate binders by department or location
- Easily create paper or electronic PDF binders of your MSDSs
- Fully indexed
- Lists hazards, PPE, emergency contacts, etc.
- Save on a CD, print your binders on paper or keep them on your PC for convenient electronic access

## **Easily Archive Outdated MSDSs**

Simple and compliant MSDS archiving with MSDSpro Classic

- Simply select the product no longer in use, click a button and they are instantly moved to the archive
- If the same product re-enters your inventory, just reverse the process and you are done!
- Meets the document retention requirement for “Cradle to Grave” OSHA and WHMIS compliance

## **Author New MSDSs**

Author your finished product MSDSs quickly with MSDSpro Classic

- Professional, easy to read 16 section ANSI formatting
- Powerful phrase library for easy “drag & drop” composition
- Over 400 ANSI phrases included
- PDF publishing, no Adobe® license required
- Customer tracking and MSDS update tools
- MSDS version control with global changes for mass updates
- Optional Spanish and French phrase libraries available (*Eliminate the frustration of authoring MSDSs today*)

## **Import and Export Information**

MSDSpro Classic keeps your information flowing even outside of MSDSpro's chemical inventory and MSDS management.

- Information can be imported and “mapped” from existing spreadsheets and databases
- Data can be exported from MSDSpro for use in reporting and other systems
- You own and control all your data and MSDSs
